

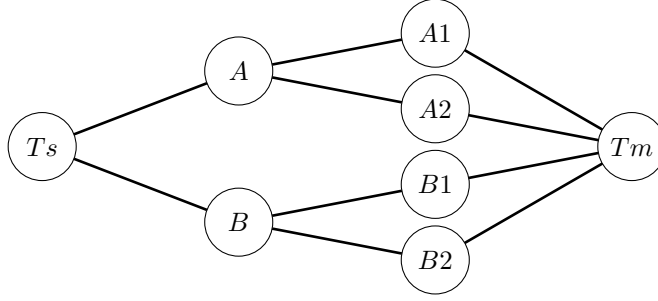

Figure 1: DAG topology of τ_{HIGH} : two nested levels of forking ($Ts \rightarrow \{A, B\}$, $A \rightarrow \{A1, A2\}$, $B \rightarrow \{B1, B2\}$) converging at a single 4-fan-in sink Tm .

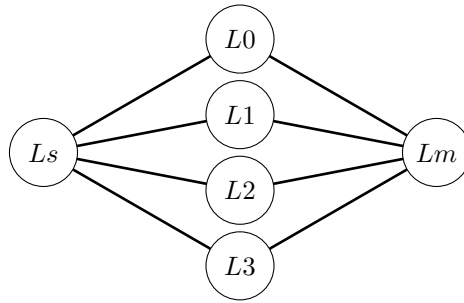

Figure 2: DAG topology of τ_{LOW} : a single fork-join level (the MCFlow Fig. 8 / Table I shape), $Ls \rightarrow \{L0, L1, L2, L3\} \rightarrow Lm$.
